## 5.3 Exkurs: The Ashlanders

### 5.3 Exkurs: The Ashlanders

Apart from the settled Dunmer we also find nomadic Dunmer called "Ashlanders". Most of them belong to tribes, but there are also individuals, who got outcasted from their tribes or whose inclusion is dubious. At present we know the names of eighteen Ashlander tribes: Aharasaplit, Ahemmusa, Ahinanapal, Aidanat, Ashamanu, Bensiberib, Elanius, Erabenimsun, Kaushtababi, Mamshar–Disamus, Massahanud, Mila–Nipal, Salit, Shashmanu, Shashurari, Sobitbael, Yakaridan, Zainab (some count the Velothi among them as well). Of these only four have survived: The Ahemmusa, the Erabenimsum, the Urshilaku and the Zainab. The other tribes became extinct, although their camps still exist, nowadays occupied by outcasts. Among the surviving tribes surnames are exceptional. Here we find only five: Maesa (Urshilaku), Mirpal, Rapli (both Ahemmusa) and Timsar–Dadisun and Zabamat (both Zainab). Interestingly it is inverse if we come to the outcast Ashlanders, suddenly all of them bear surnames. Their surnames are unique and do not appear among the settled Ashlanders.

### 10.3 On Orcish nomenclature

Traditional Orcish names consist of three elements: (1.) The individual's given name and (3.) a parent's name, which is introduced by (2.) the *nasab*<sup>1</sup> "gra" ("Daughter of") or "gro" ("Son of"), depending on the individual's gender. In one specific case we find the nasab "gor": This might be an error, or it could express that the individual's parent is unknown. Then it might be that the individual bears instead of the parent's name its foster-father's name; then the nasab "gor" could mean "foster-son of" (and respectively "gar" = "foster-daughter of"). Furthermore intercourse between Orcs and members of other peoples seems possible, this would explain an orcish name such as the Imperial-Orcish "Optio Bologna" or the more alien "Koffutto Gilgar". In such a case the rules of traditional Orcish nomenclature are invalidated.

---

<sup>1</sup> Arabic phrase used for nominal elements which express a bearer's degree of relationship.

<sup>1</sup> Originally classified as "CR", this is the ghost's full name.

<sup>2</sup> The famous "last living Dwarf".

<sup>3</sup> Dagoth Ur's original name is Voryn Dagoth (See *Message from Dagoth Ur*, TEST I, p. 502), and according to Vivec's explanations the seven ash vampiric Dagoths are his brothers (the other Dagoths seem to be only leading servants like Dagoth Gares, the "Sixth House priest").

All names are property of Bethesda Softworks Inc., a ZeniMax Media company.
